Section 6 - Accidental Release Measures

Spill/Leak Procedures:

Small Spills:

Contain spills immediately with inert materials (e.g. sand, earth). If material is spilled in a confined area, ventilate the area well. Keep spectators away. Floor may be slippery; use care to avoid falling. Transfer liquids and solid diking material to separate suitable containers for recovery or disposal. **CAUTION:** keep spills and cleaning runoff out of municipal sewers and open bodies of water.

Large Spills:

Use same procedure as small spill.

Containment:

For large spills, dike far ahead of liquid spill for later disposal. Do not release into sewers or waterways.
